

PARENT / GUARDIAN TESTIMONIAL

Parent's / Guardian's Name: Linda Phoon Date: 18/1/09

My Child's Name (Age): Linnette (13) & Graeme (17)

What Parent / Guardian Says:

Linnette is utterly concerned about not being late for class....otherwise her "money pot" will be deducted, haha but one major change is that she has really become more sociable and talkative....she is able to make new friends in her new secondary school quite easily....she claimed that she has so called "friended" half her class just after one week....not too bad for a girl whom was rather shy previously.

As for Graeme....he seems to pay more attention to business news...like watching CNN...and reading the stocks markets from the newspaper etc and also sharing with us such as buying car is a liability and we should not be spending money on it.

I will circulate the money tree program to some of my friends

Thanks Money Tree.
