

STUDENT'S TESTIMONIAL

My Parent's / Guardian's Name: Lyn Lee Date: 16/1/09

My Name (Age): Clarisa Kim Wemple 12 years old

BEFORE WORKSHOP:

Before I joined money tree, I didn't really know many ways on how to save and why we should save. I also didn't realize that starting to save from young would help when you're older. I didn't really realize that when spending, you have to think carefully because there was this particular sentence that I have heard somewhere when I was younger, that kept ringing in my head when I bought something. The sentence was, "Money spent can be earned back." That sentence made me think that money was really easy to earn back, but it's not as easy as it sounds.

AFTER WORKSHOP:

After the programme, I now understand a bit more about money and how we should spend it wisely and ways to save up our money. Now, I feel that even though the sentence that was always ringing in my head after I bought something was true, I now understand that that sentence is both wrong and right as if you keep spending money, earning it back may be quite difficult if you don't have a good pay job. I really enjoyed the programme as I have made new friends and at the same time, learned new things! :)
