My Parent's / Guardian's Name: Linda Phoon Date: 16/1/09

My Name (Age): Graeme Ching 16 years old

BEFORE WORKSHOP:

I used to splurge on many unnecessary items before I attended money tree. No sense of saving ever entered my mind and it didn't really seem to make much impact on my life whether I saved or not, so naturally I didn't. It would have gone out of control if I hadn't attended the money tree lessons.

AFTER WORKSHOP:

The lessons were extremely helpful, they were very interesting and made the complex study of subjects such as economics and stocks very simple to grasp and understand. I benefited greatly and it would surely help me in the future, not only in the poly, but also in my future career. Thanks money tree!
