My Parent's / Guardian's Name: \_\_\_\_\_ Date: 15/1/09

My Name (Age): Shazwi Suwandi 18 years old

### **BEFORE WORKSHOP:**

Being someone that wanted an avenue to express my business self and a person to turn to for guidance to financial and business maturity, I expected MoneyTree to have good trainers with good ways of teaching me on everything from saving money to raising money for my company.

### **AFTER WORKSHOP:**

MoneyTree has certainly fulfilled my expectations as a financial body that equips me with enough skills. Right now, I've acquired public speaking skills, business planning skills, and many more that has made me achieve what I thought was impossible in the past. From then on, I've been participating in many business competitions and succeeded thanks to both MoneyTree and my own sweat and tears. I'm glad I started my business journey with them and today, I'm already starting up my business with the help of other mentors who are in the web industry. Cheers.
