### **BEFORE WORKSHOP:**

Before attending MoneyTree, I did not possess much financial knowledge and the idea of going into business had rarely crossed my mind. With the onset of the current recession, I expected the trainers there to equip me with the right financial knowledge and skills to be able to manage my money well.

### **AFTER WORKSHOP:**

MoneyTree has certainly equipped me with lots of useful skills, from planning your goals to managing your wealth. It is the only class that I have taken in so far in my life that I look forward to. I now aspire to set up businesses and am interested in investing. Thanks to all the trainers who made this possible.
